123/21	10 Minute Open Forum: Six members of public attended to express concerns regarding the Hempton pinch point and speeding issues. One resident had been involved in an accident where a vehicle passing through the pinch point was travelling too fast in wet conditions and landed on the car. She stated accidents have occurred before and was concerned for the safety of pedestrians as well as road users. Others commented that the signage should be improved, the layout should change, data gathered, use of average speed cameras, concern raised for children moving to and from the bus stop. There was grave concern that someone will ultimately be seriously injured. It was also stated that there was often swearing and honking of horns or vehicle drivers having a close shave with people travelling too fast and not letting people with right of way pass. The signage is not visible. Difficult to walk through the pinch point. Problem exacerbated by the long high-speed roads leading into Hempton from both the West and East. There were calls to get the speed survey done as a matter of urgency. One of the residents, a former, traffic management and highway management consultant. said there was little that could be done about the traffic management. He raised concern about maintaining access for large agricultural vehicles and said that the issue was a Police problem and, when dealt with by Police in High Viz jackets saw, a momentary reduction in speeds. He noted that the police and crime commission do not deal with small policy.
124/21	County Cllr A Fatemian: a) Pinch Point, Hempton. County Cllr addressed the residents' concerns and stated that two measures were to be taken by Highways. Firstly, that the signage would be reinstated (Give Way on the eastern side). Secondly, that there would be a survey to measure the volume and speed of traffic. The Highways will then meet up with representatives and discuss what can be done given the data received. b) Thank you. County Cllr A Cllr Fatemian expressed his gratitude at being re-elected for a further four years. He noted that the changed party composition of the council could have effect on funds available to him. He confirmed that £1,000 from his Priority Fund would be made available towards the insurance and other associated costs of the annual Remembrance Day parade. c) M40 Rail Freight Interchange. He informed the PC about this proposal and asked to what extent the PC would like to be involved. The interchange would be at junction 10 on the west side of the motorway between Ardley to the north, Middleton Stoney to the south and Upper Heyford to the west. The proposal is being considered as a Nationally Significant Infrastructure Project whilst the Council has no decision-making role it can comment on its impact. (To agenda in the July 2021 meeting)

Cllr S O'Neill proposed, Cllr A Collins seconded the motion and the Council RESOLVED (unanimous) no objection but would like the following conditions applied 1) there is suitable space between the hedgerow to allow farm access for hedgerow maintenance 2) that there is mitigation plant to the front and sides to limit visibility and 3) that it is of a non-obtrusive colour.</p> <p>f) 21/01278/REM Land South of Home Farmhouse Clifton Road Deddington. On application 19/00831/OUT. Application for the erection of 15 dwellings, 10 open market dwellings and 5 affordable dwellings. Cllr S O'Neill proposed, Cllr M Swadling seconded the motion and the Council RESOLVED (unanimous) no objection but would like the following comments taken into consideration.</p> <p>1) The affordable housing isn't tenure blind. The affordable should be mixed in with the market housing in a way that does not set it aside as an obvious rich/poor divide on the development.</p>																																																		

	<p>2) The Council would like to discuss the village boundary features with OCC / Developer.</p> <p>3) The Council are disappointed to note that the band of trees providing a much-needed screening between this development and the storage unit on the adjacent property have been removed. Albeit the band of trees were on the adjacent land, this application makes much of their importance to this development. Both plots of land are believed to be in common ownership. Perhaps the developer would consider reinstating them on this side of the property boundary to improve the outlook and screening of the properties – currently this offers a very negative impact on the vista from the affordable homes.</p> <p>g) 21/01547/F 5 Flux Drive Deddington.
